

My name is JENIPHER, for this four years which I have been stayed here in Hostel of St. Joseph of chambers, I have experienced a lot of things such as in term of environmental for learning are so good and attractive enough since helps those students who stays here to achieve highest marks and good results compared to those who stays in home as well as enables the students to have spiritual services. Also in the side of food which you have preparing to the students always are so good and delicious for the health of the students.

Then for my side I suggest that Mathematic and History tuitions should always provided to our young girls so as they can be more good in such subject.

Also, I'm so greatfull to you all sisters for your care, love, ~~best~~ tolerance and cooperation which you have been <sup>shown</sup> to us for these four years. We haven't anything to pay for you back, but may God bless you forever.

Wishing you longer life.

THANK & YOU.
